## CAREER OBJECTIVE

---

Frontend Developer with a strong focus on implementing modern UI and responsive layouts. Experienced in translating Figma designs into scalable, accessible, and high-quality React.js applications using Tailwind CSS and Material UI.

## PROJECTS

---

### Admin Dashboard

[Live Site](#)

- Implemented a secure authentication flow with public and private routes using React Router, restricting admin access to the dashboard until successful login.
- Integrated role-based navigation and protected components to ensure only authorized users can access private routes and admin functionalities.

### Movie Search Site

[Live Site](#)

- Implemented a dynamic movie search functionality using Fetch API to retrieve real-time data from a public movie database API.
- Designed and developed a modern, responsive UI layout using HTML, CSS, and JavaScript to ensure smooth user experience across devices.

## INTERNSHIP

---

### Front-End development

June 2025 – December 2025

LYFnGO - Coimbatore

- Designed and implemented interactive user interfaces using React.js and Material UI, building reusable components and modern layouts for internal applications.
- Integrated APIs and collaborated with backend and site teams to support quantity estimation and safety management systems, gaining real-world project experience.

## EDUCATION

---

2021 - 2025	<b>Information Technology</b>	(CGPA: 7.32)
	<b>K. S. Rangasamy College of Technology</b>	
2020 - 2021	HSC - Zamindars Trichy	(78%)
